## *Clean-Line™*

Migrational Drain Cleaner

U.S.D.A Approved

DC-101

### **PRODUCT DESCRIPTION**

Clean-Line exhibits migrational properties and is odorless. Clean-Line is a non-toxic, non-flammable and water-soluble drain cleaner. Clean-Line is designed for extreme action and maximum consumer safety. Clean-Line fosters a chemical reaction with organic matter and structurally converts hydrocarbons into a soluble mixture of oil, salt and lipid that flows. These constituents are the technical ingredients of generic soap and once converted will aid in Clean-Line's overall functionality and detergency. This conversion allows uniform flow properties and ensures safe and effective penetration.

Clean-Line's potency and performance assures maximum results plus greater economy for regular preventative maintenance schedules. This compatible opener can tackle extensive clogs effectively and safely. When used regularly it will keep your system flowing and odor free.

### **CHARACTERISTICS**

- Non-toxic
- Maximum consumer safety
- Non-flammable
- Chemical converter
- Allows for uniform flow
- Odorless
- Compatible
- Economical

### **APPLICATIONS**

For existing clogs Clean-Line is a ready to use product. For ongoing usage, use 1 cup per one-inch drain per week with a regularly scheduled maintenance program. Please see MSDS before use.

Storage - Keep in sealed container in compliance with all current and local regulations.

Shelf Life - 12 months from the date of manufacture if stored as indicated above, unopened in sealed containers.

### **WARRANTY & DISCLAIMER**

The information provided is to be used as a guide and customers should perform their own tests to ensure performance in their application. All data, statements, and recommendations made herein are based upon information we believe to be reliable, but are made without any representation, guarantee or warranty of accuracy. All statements, technical information and recommendations contained herein are based on tests SEI Chemical believes to be reliable, but the accuracy or completeness thereof is not guaranteed. SEI Chemical warrants its products will be free from defects when shipped to customer and should work in a manner consistent with its product data sheets should the products be applied in a commercially acceptable manner as determined by SEI Chemical. SEI Chemical under obligation of this warranty shall be limited to replacement of product that proves to be defective. To obtain replacement product under this warranty, the customer must notify SEI Chemical of the claimed defect within three months after shipment of product to customer. All freight charges for replacement products shall be paid by customer. SEI Chemical shall have no liability for any injury, loss or damage arising out of the use of or the inability to use the products. Before using, user shall determine the suitability of the product for the intended use and assumes all risk and liability whatsoever in connection. No representation or recommendation not contained herein shall have any force or effect unless in a written document signed by an officer of SEI Chemical. The foregoing warranty is exclusive and in lieu of all other warranties expressed or implied. In no case shall SEI Chemical be liable for incidental or consequential damages. Limited warranty for industrial or commercial use only. Keep out of reach of children, keep container tightly closed, not for internal consumption. Consult material safety data sheet before use.
