## *Kleen Out™*

### Emergency Drain Opener

DC-100

#### **PRODUCT DESCRIPTION**

Kleen Out is a technological break through in professional drain care. Kleen Out utilizes a highly migrational and penetrating nanoparticle that bonds to organic matter and initiates an instantaneous reaction. Kleen Out is non-flammable, water-soluble, biodegradable and has no odor. Kleen Out's proprietary formula immediately bonds to all organic matter and simultaneously initiates a chemical reaction that alters the structure of hydrocarbons. This reaction fractures chemical bonds and liquefies contaminants on contact. Kleen Out degrades organic matter and inherently breaks down its' structure there by dissolving any clog. As a carrier, Kleen Out does contain a modified and significantly inhibited sulfuric acid emulsion that is safe for use in PVC, cast iron, steel and galvanized piping as long as the product is used in accordance with the products labeling. Never use Kleen Out in standing water and never allow Kleen Out to stand or sit against a plumbing part or fixture as damage may occur. Always apply Kleen Out slowly in slow flowing fresh water. Kleen Out must only be used by those who are considered to be professionals and experienced in the plumbing industry. This compatible emergency opener tackles your heaviest clogs quickly and efficiently.

#### **PACKAGING**

Every bottle is individually packaged in chemically resistant heat sealed bags for enhanced protection and safety. All bottles are 60+ gram weight for enhanced protection and stability. As well, every bottle uses *Safety Seal* to ensure security and prolonged shelf exposure. Only Child Proof Safety Caps are used and every bottle contains detailed instructions for use, shipping, storage and disposal. All packaging and labeling are UN Compliant.

#### **APPLICATIONS**

Kleen Out migrates and chemically breaks the structural bonds in organic products and other contaminants that cause clogging. Kleen Out is a ready to use product and should be applied with care in a responsible fashion. This product must be used in accordance with the products labeling and must be disposed of in accordance with local and federal regulations. Please see MSDS before use.

#### **STORAGE, HANDLING & PACKAGING**

Packaging: 32oz., 1/2-gal, 1-gal.

Storage - Keep in sealed container in compliance with all current and local regulations.

Shelf Life - 12 months from the date of manufacture if stored as indicated above, unopened in sealed containers.

#### **WARRANTY & DISCLAIMER**

The information provided is to be used as a guide and customers should perform their own tests to ensure performance in their application. All data, statements, and recommendations made herein are based upon information we believe to be reliable, but are made without any representation, guarantee or warranty of accuracy. All statements, technical information and recommendations contained herein are based on tests Betterbilt Chemical believes to be reliable, but the accuracy or completeness thereof is not guaranteed. Betterbilt Chemical warrants its products will be free from defects when shipped to customer and should work in a manner consistent with its product data sheets should the products be applied in a commercially acceptable manner as determined by Betterbilt Chemical. Betterbilt Chemical under obligation of this warranty shall be limited to replacement of product that proves to be defective. To obtain replacement product under this warranty, the customer must notify Betterbilt Chemical of the claimed defect within three months after shipment of product to customer. All freight charges for replacement products shall be paid by customer. Betterbilt Chemical shall have no liability for any injury, loss or damage arising out of the use of or the inability to use the products. Before using, user shall determine the suitability of the product for the intended use and assumes all risk and liability whatsoever in connection. No representation or recommendation not contained herein shall have any force or effect unless in a written document signed by an officer of Betterbilt Chemical. The foregoing warranty is exclusive and in lieu of all other warranties expressed or implied. In no case shall Betterbilt Chemical be liable for incidental or consequential damages. Limited warranty for industrial or commercial use only. Keep out of reach of children, keep container tightly closed, not for internal consumption. Consult material safety data sheet before use.
